

The diagram below represents your

**AUTHENTIC LEADERSHIP COMPASS.** The Compass

is based on core components of who you are (self-awareness), how you are (self-management) and what you need (self-care). Use it to orient yourself when faced with decisions, strategies, relationships, policies, communications, etc. to determine (1) which parts of yourself to engage and (2) to measure how and if a tentative action is aligned with the Authentic You.
